

Senior Center Volunteers home visit with Nevada Partin

Nevada came to her door and welcomed us into her home, which displays some beautiful old blue dishes.

She was a career women in her lifetime, starting out as a teacher and eventually moving up to claim the title of principle at Frakes Elementary School.

Tragedy after tragedy seemed to come into her life so often. She lost her parents in a house fire, her only child, a daughter, and then her son in law.

She has two grandsons who come by often to help and check in on her.

On May 10th we delivered her a basket of flowers for Mothers Day and she immediately began crying. After she explained that may 10th was the date she lost her daughter, we too cried with her.
