

## Home Visit with Bea Partin

Our second visitor on this day gave us such a joy to visit. She is 97 years old. She is very alert and a sharp mind. She was just elated to see us.

Her daughter who resides with her was also given a lunch and seemed thankful.

Bea drove her until she was in her 90s and loved to visit the Opportunity Store until she gave up her driving.

She is using a walker and

walked us out onto her porch for a thanks you and goodbye.

Bea might not drive her car anymore but she does a great job maneuvering that walker.
