

Home Visit with Lona Maiden

Lona was eating a snack when we came for a visit and to bring her a lunch and a basket of flowers for Mothers Day. I believe we came at the right time with lunch.

Telling us a bit about herself she explained that she is a proud mom of five children. She also stated that a son of hers is staying with her.

Lona seems like a very happy 76 year old lady. I believe we enjoyed her visit as much as she enjoyed ours.
